#### How We Measure Quality-of-Care

*This Home Health Agency Provider Profile was created to help you select a local agency with a history of success serving patients with conditions similar to yours. This profile includes information about the quality, value, and clinical services delivered at each agency. We utilized Medicare Star Ratings (available at <https://data.medicare.gov/>), historic Medicare claims data for patients served at each agency, and information reported by each agency to understand the capabilities and services available.*

#### Quality Information Highlighted

*Although this profile highlights your local options, understanding an agency's performance compared to national practices can be a helpful way of assessing quality.*

Category	Fair	Good	Excellent
Medicare Star Rating	1-2 Star Overall Rating	3 Star Overall Rating	4-5 Star Overall Rating
Readmission Rating	Agency falls at or over 4.7 percent rate of patients who were readmitted to the hospital for a potentially preventable condition after discharge from home health.	Agency falls between 4.2 percent and 4.6 percent rate of patients who were readmitted to the hospital for a potentially preventable condition after discharge from home health.	Agency falls at or below 4.1 percent rate of patients who were readmitted to the hospital for a potentially preventable condition after discharge from home health.
Specialty Clinical Programs	Agencies have verified that they have an enhanced clinical program with specialist physician oversight for these service areas, indicating an increased focus and level of service for specific conditions.		
Additional Support Services	Comma-separated list of additional support services made available by the home health agency.
